## Allowable Subject Matter

- Claims 9 and 11-16 are allowed.
- 2 The following is an examiner's statement of reasons for allowance: In the response filed 10/17/03, applicant cancelled non-elected claims 1-8 and claim 10, amended claim 9 to include the limitations of the cancelled claim 10, amended claims 11 and 12 to correct their dependency, amended claims 14 and 16 to be in independent form, and amended the specification to correct minor informalities (which has been entered). In light of the amendments, the only claim rejected, claim 9, now includes the allowable subject matter of the cancelled claim 10, thus the rejections made in the previous office action have been dropped. The examiner performed an updated search of the prior art of record, but no new relevant art was found. Therefore, the present claims 9 and 11-16 are now allowable over the prior art or record as the prior art of record fails to teach or suggest to one of ordinary skill in the art to prepare a photosensitive resin comprising a triallylmethane dye in combination with a copper phthalocyanine dye (claims 9 and 11), in combination with a copper phthalocyanine dye and a xanthane dye (claims 12 and 13), in combination with a photoactive compound and an alkali soluble resin in the presently claimed amounts (claims 14 and 15), or in combination with a photoacid generator, curing agent, and an alkali soluble resin in the amounts claimed by the present claim 16...

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
